The warranty provisions under UCC Article 2 and the laws interpreting them provide a vast amount of information that can seem overwhelming at times. This live audio conference will provide a general overview of the scope of Article 2 and the types of warranties offered by the UCC, and discuss the various defenses, remedies and damages available for each type of warranty. The discussion will include express warranties, the implied warranty of merchantability, the implied warranty of fitness for a particular purpose and the implied warranty of title. We will also look at the types of limitations, modifications and disclaimers available for each type, and provide helpful hints that you can pass on to your clients when advising them on drafting warranties.
